MADE BY
Theuns

Theuns – Masters of Solid Oak

At Theuns Furniture Factory, craftsmanship, character, and timeless design are at the heart of everything we do. For three generations, our family has been designing and producing high-quality solid oak furniture entirely in-house at our factory in Essen, Belgium.

Today, Kris, Elke, and Jan Theuns lead the company with passion and vision. Alongside our own collections, we collaborate with interior architects and brands to create unique, standout projects.

Sustainable Craftsmanship

With over 90 years of experience working with solid oak, we're proud to be one of Europe's leading furniture manufacturers.

Quality and sustainability go hand in hand. That's why we only partner with certified European suppliers who practice responsible and ecological forest management.

Supporting certified forestry is essential for protecting nature and ensuring a greener future — and we're committed to doing our part.

Proudly Made in Belgium

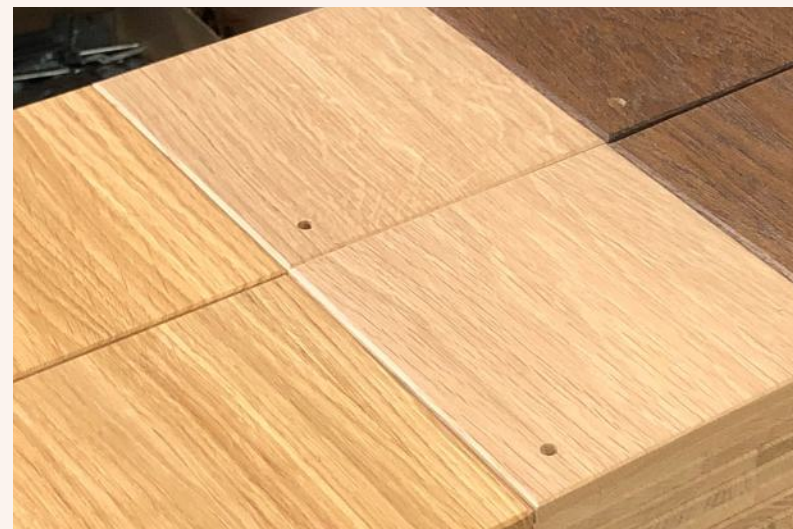

Since 1934, our cabinets and tables have been crafted with care and precision in Belgium. By keeping production entirely in-house, we guarantee top-tier quality and can respond quickly to custom projects or tight deadlines.

With a team of over 50 skilled professionals, we ensure every piece meets our high standards — from design to finish.

Your Style, Your Color

Every piece of Theuns furniture can be customized to match your personal style. Choose from over 30 colors — from natural oak to deep black — and create a look that's uniquely yours.

Prefer a different wood type? We also work with Walnut, Beech, and Ash. Together, we'll craft a piece that fits your space perfectly.

Linio

Tables

With the Linio collection, every table becomes a personal creation. You start by choosing the shape that fits your style — a striking triangle, a timeless rectangle, or the elegant Danish oval.

Next, you select the perfect size: from our carefully curated standard dimensions or a custom-made design tailored entirely to your space.

Refine your design with a distinct edge profile and elevate the look with one of our premium finishes, chosen for their durability and refined texture. Finally, complete your table with a slender leg for a light aesthetic or a bolder leg for a statement presence.

Linio is where craftsmanship meets choice — a collection that adapts to your taste, your home, and your way of living.

Montreal

Straight

Introducing Montreal, a natural oak table that redefines elegance with its unique blend of craftsmanship and modern design. The 33mm oak tabletop features refined side edges tapered to just 8mm, creating a sleek, ultra-thin appearance that exudes sophistication. Paired with remarkable yet understated metal legs, Montreal strikes the perfect balance between strength and elegance. This table is a statement piece that seamlessly enhances any dining or living space, combining natural warmth with contemporary flair.
